

Memo

To: CP-CTNet Colleagues

From: CP-CTNet Steering Committee

Date: July 28, 2023

Subject: Quarterly Steering Committee Information Dissemination

1. NCI Update

- I-SCORE 2024 dates have been finalized for March 14-15, 2024. The format will be in-person and virtual.
- Dr. Powel Brown's retirement was announced. He will remain on the CP-CTNet Steering Committee. Dr. Brown will continue working part time in a "modified service plan" at MD Anderson conducting laboratory and clinical research. Dr. Vilar-Sanchez will serve as the MD Anderson CP-CTNet Principal Investigator.

2. New Agent Solicitation

- Dr. Goli Samimi presented a new concept which was accepted to move forward for further development by the voting members of the steering committee. The solicitation will go out August 4, 2023.

3. DMACC Update

- DMACC continues with development of a proof-of-concept pilot with MDA and NWU for an official, centrally-managed REDCap data collection instrument for patient reported outcome data. DMACC is awaiting feedback from MDA and NWU.
- The DMACC auditing team is working with DCP to update the auditing algorithm for the network to align with industry standards, while auditing all high-risk study AOs.
- DMACC is continuing to roll out the Virtual Specimen Repository website to users and evaluating reporting needs.
- DMACC is adapting the DCP protocol deviation process and is exploring the development of an alternative system to meet the needs of the network.

4. CP-CTNet Committee Updates

- EDI Committee Update

- **EDI subcommittee for Education**
 - **The CP-CTNet EDI Education Webinar was held May 19, 2023. A panel of experts discussed strategies to improve minority enrollment into clinical trials.**
- **EDI subcommittee for Staffing**
 - **No update.**
- **EDI subcommittee for Clinical Trials**
 - **Protocol eligibility criteria were updated previously.**
- **Cross-network Trial Working Group**
 - **The group continues to work on finalizing the Cross-network Trials Guidelines and hopes to have that completed in the next month.**

5. Cross-Network Trial Updates

- **INT21-05-21 Tri-Ad5/N-803 Vaccine for Lynch Syndrome**
 - **This trial has been activated and 4 participants are currently enrolled. Toxicities are being monitored on a weekly basis by the Study Safety Committee. The Cross-network trials DSMB will convene on October 6, 2023 for its annual review of all cross-network trials.**
- **INT22-09-01 Randomized Trial of Apalutamide in Non-Muscle Invasive Bladder Cancer**
 - **Good progress is being made to move this study forward. A revised protocol was submitted last week.**
- **INT23-14-01 Refining Tamoxifen Dose for Premenopausal Breast Cancer Prevention (RENAISSANCE): A Phase II Single Arm Trial**
 - **The protocol was recently submitted and the group is awaiting funding information from the Breast Cancer Research Foundation and hopes to start the trial March/April 2024.**
- **Statistical considerations were discussed regarding the different paths a protocol may follow while being developed into a cross-network trial. This will be clearly defined in the CP-CTNet REFGD06 | CP-CTNet Cross-network Trials Guidelines that we hope to finalize in the next month.**

6. New Topics

- **Publications**
 - **Currently there are three publications that CP-CTNet colleagues have had accepted. We plan to post those on the CP-CTNet DMACC website in the near future.**
- **Conflict of Interest**
 - **Please look for new guidance coming soon from DCP regarding Conflict of Interest with respect to notifying the CIRB and grants management at the NCI.**

7. Concept Solicitation #16-17

Cycle #	Steering Committee Date	Concept Solicitation Date	Concept Due Date
16	July 28, 2023	Aug. 4, 2023	Oct. 6, 2023
17	Oct. 27, 2023	Nov. 3, 2023	Jan. 9, 2024

8. Next Steering Committee Meeting

- **Date: 10.27.2023**
